

## Twin Consultation participants' circular No 2

13<sup>th</sup> October, 2015

Dear participants,

Greetings to you and peace in the name of our Lord Jesus Christ from the preparatory committee of the Twin Consultation "Reformation – Education – Transformation" process!

With this second circular we wish to provide further information which will give you a clearer picture of the working procedures during the conference.

### **Participants**

Attached you will find the latest list of participants. Please let our coordinator know how do you want to be named (regarding titles etc.). We added all the E-Mail addresses of those we know they agree as well the ones of the preparatory committee.

### **How do we work during the conference**

Attached you will find a paper which describes the formats we will work with during the conference. There you will find more information on the Open Paper Sessions, how the Workshops will be etc.

There have been no changes in the program. You will find the latest version and more information on keynote speaker on the Website [r-e-t.net](http://r-e-t.net)

### **Workshop Groups**

The main thrust of the content-related reflection during the consultation will take place in the thematic track groups. In the last circular we asked in which workshops you would like to participate. In the next future we will send you the result and will ask you to assign for different tasks within the conference. For those of you who did not yet sent back the form – please let us know if you need more information or assistance to decide.

### **Communication tools**

There is a new and additional communication tool which had been set up for conference participants beside the official website of the Twin Consultation project. This is a research working group within the [Globethics.net](http://Globethics.net) system. Participants can go to the website indicated below, once they are registered in Globethics.net as a user (you can register once and for all and

free of charge by clicking the button "[register for free](#)") and then go to the indicated research group and click "join".

The purpose of this free web-based research group is to

- Share resources and input from the two Twin Consultation processes
- Provide a platform for dialogue on Reformation education and transformation beyond the conference
- Enable dialogue and sharing on strategic follow up on these issues with ecumenical partners, educational institutions and churches which are interested in Reformation, Education, Transformation.
